ABOUT US

In 2003, Concrete Technology was founded with a vision of introducing modern technology in the Construction Industries of Bangladesh. Concrete Technology is formed by a Bunch of talented Engineers, Professionals and associates.

The Primary Objective was to Introduce Modern Technology in the Construction industry of Bangladesh. With this spirit company expanded its Business relationships with the Global brands **FIORI**, **AQUARIUS**, **SOILMEC**, and **GREAVES** to perform as their authorized dealer. The company has supplied a big number of Concrete Equipment for all types of construction companies in Bangladesh. Moreover, some Multinational Contractors are being habituated to using our machinery. **FIORI & SOILMEC** are Italian companies and **AQUARIUS & GREAVES** are Indian companies.

As an authorized dealer, Company performs service with spare support, erection-commissioning, troubleshooting, over-phone troubleshooting, repairing and other services locally.

Company stock mostly imported spares from the principals & manufacturer for appropriateness and better performance with more service life. The company has vast experience of working with Schwing Stetter for 12 years as an Authorized dealer.

The company likes to serve the country with proper technology with long-lasting brands.

CEO'S STATEMENT

To introduce modern Technology in the Construction Industry of Bangladesh, we started our journey in the Name of Concrete Technology in the year 2003. It was our utmost try to provide honest service for Construction works and to the customer. With the spirit of modern construction works the company got the opportunity to work with so many Global construction companies namely Larsen and Toubro, Shimuji, and Obayashi Corporation.

On the way of journey, we started work as an authorized dealer of Schwing Stetter for the Bangladesh territory in the year 2009. In 2012, Company bagged the dealership of the Global Brand **SOILMEC S.p.A.** In 2015, Company added a dealership with another global Brand **FIORI Group**, after that in 2020 Company added a dealership of another brand **AQUARIUS ENGINEERS** and **GREAVES COTTON LTD.**

Our dream is to serve the nation by introducing modern and new technologies in the construction industry of Bangladesh. Which will develop skills of unskilled manpower in this country. Moreover, we are trying to develop a Corporate Company that will serve this Nation Generation by Generation as a long-lasting brand.

Md. Khairul Islam

Ceo - Concrete Technology

MISSION & VISION

Our Mission

Our mission is to provide modern technologies in the construction industry and to deliver exceptional services. To maximize the business value, exceed our customers' expectations by providing high-quality solutions, products, and reliable services, assure a safe working environment, and offer our employees the opportunity to grow professionally.

Our Vision

Our vision is to provide all kinds of construction technologies under one roof. Enabling our customers to produce concrete on-site and on-demand, in the quality and quantities required, reducing energy costs and environmental impact.

OUR PRINCIPLES

FIORI GROUP

FIORI GROUP, founded in 1942, with its headquarter in Finale Emilia (MO) Italy, branches in Brazil and Singapore, and a distribution network in over 60 countries, designs, develops and manufactures off-road Concrete Batching Vehicles, Dumpers for the construction industry and Silos.

SOILMEC

Soilmec S.p.A. is an Italian manufacturer of construction equipment belonging to the Trevi Group established in 1969 in Cesena. Soilmec is distributed in more than 70 countries worldwide. Soilmec manufactures drilling machinery to be used in the construction of pile foundations, and the drilling and servicing of oil, gas, and water wells. The company has expanded into the manufacture of crawler cranes and tunnel-boring machines.

AQUARIUS ENGINEERS PVT. LTD

Aquarius Engineers began operations in 1981. A multifaceted, multi-venture, manufacturing conglomerate. State-of-art manufacturing plants at Pune and Goa spread out over 14,00 sq.m. and 40,000 sq.m. of land respectively. Focused on manufacturing advanced technology construction equipment, e.g. Concrete Pumps, Batching Plants, Boom Pumps, etc. Products produced by global technology, that meet stringent international quality standards. Export of equipment to many Asian and African countries. Aquarius is proud of the after-sales service and spare part support provided to domestic as well as international customers.

GREAVES COTTON LTD.

Greaves Cotton Ltd. is an Indian engineering company that manufactures engines and heavy equipment. Greaves Cotton is a multi-product and multi-location company with a rich legacy and brand trust of over 163 years and has established itself as a key player impacting a billion lives every day. The company today manufactures world-class products and solutions under various business units.

OUR SERVICES

Consultancy Services

Concrete Technology not only supplies construction equipment but also provides consultancy services to the customer. We want our customer to understand their requirements while they are purchasing equipment. We believe a knowledgeable customer can make a better decision.

Marketing & Sales Service

We consistently provide marketing support for Concrete Machinery like Concrete Batching Plants, Concrete Pumps, SLM, Boom pumps, Transit mixers, Rotary Hydraulic rigs, and so on, for the past 20 years. We have worked with many global brands and helped them to establish their market here. Likewise, we are proud of our marketing services that have amazingly penetrated & lead the market in every product category.

Machinery service support

Concrete Technology has worked with the leading construction machinery manufacturers. We have maintained the international service quality for every brand. Moreover, we have 30+ service experts who are trained and continue serving our customers. We have an extraordinary reputation for service in the industry.

Spare parts support

Our company has always supported its customers with after-sales service & support. Keeping this in mind, we store all kinds of necessary spares for all of our provided machinery. It helps us to support our customers instantly. We believe that the availability of spare parts is the most important part of our swift service & support.
